Close Window

Measuring for a Custom Harness

A. From corner of mouth over the poll, and to the other corner of mouth.

B. Circumference of nose, taken about two fingers width below the prominent cheek bone.

C. Circumference of Girth

D. Length of back from position of harness saddle to base of tail.

E. Length of horse, from point of shoulder to buttock.

F. Height at withers.

If you are ordering a custom sized harness, choose the custom choice and add measurements (according to this chart), the body weight and the type of horse, and the style of the vehicle the harness is intended for, to the comments box at checkout. This information will enable us to fill your custom order.
